

Yerevan, 25th of March 2021

Excellency,

I warmly congratulate You and brotherly Greek people on the occasion of the National Day of the Hellenic Republic – the Independence Day and the 200th anniversary of the liberation from the Ottoman Turkey yoke.

The Greek people won their Independence after years of heroic struggle and sacrifices. In this road to Independence there are many expressions of cooperation and common struggle between sharing the same fate, under Ottoman rule, Armenian and Greek people, based on millennia of historical and cultural relations, common spiritual values and mutual sympathy.

In recent decades, Armenia and Greece have succeeded in developing strong, interstate relations and sustainable bilateral agenda, which include active political dialogue and cooperation in various fields.

The role of strong Armenian community in Greece as well as enjoying the love and respect of the Armenian people the Greek community in Armenia is significant for further strengthening of relations between our countries.

I am confident that the warm friendly ties, sincere and effective cooperation between our countries henceforth will be developed and strengthened for the benefit of our peoples.
